

CHRISTMAS HEADS UP

Players: 4+

Materials:

- Printable cards

How to Play:

1. Print the attached cards and cut them apart. Shuffle the cards and leave them face down.
2. Set a timer for one minute. The first guesser will pick up a card and place it against their forehead so they cannot see what it reads but the other players can. Each card belongs to one of four categories: Character, Movie, Song, or Icon.
3. The other players try to give clues to indicate what the card says. These can be words, sounds, or movements, but they cannot say any word on the card except the category. If any player does accidentally say a word on the card before it's guessed, set it aside and shuffle it back into the deck at the end of the round. When the guesser guesses correctly, they can switch to a new card. Once the time is up, gather the cards they guessed correctly and set them aside as that guesser's points. Move to the next guesser and repeat.
4. Play until everyone has had a turn. If you run out of cards before every player has had a turn, make note of each player's point total so far, collect the cards, and reshuffle the deck.
5. To keep the game going, consider adding rules to add extra challenges. These challenges could include limiting the ways clues can be given (only acting or speaking, but not both), adding additional words that cannot be used, making teams that compete on each card, or limiting the time given to guess.
